

Family Big Day Out

Temptation # 10

Pick up from your hotel at 9:00 AM. Your child friendly tour guide will show you the fun aspects of the museum and special sites. First go to China Aviation Museum. China Aviation Museum is about 40 miles north of Beijing and located in the foot of fascinating Xiao Tang Hill (XiaoTang Shan) in Chang Ping County. On November 11, 1989, it was opened to the public in the 40th Anniversary of the Founding of Air Force of the Chinese People's Liberation Army. On April, 1991, the air force official ratified its name as the "Air Force Aviation Museum".

In the foreign exchanges, it is called as the China Aviation Museum. At present, the aviation museum collected more than 200 airplanes with the types exceeding 100, and weapon and equipped samples like ground-air missile, high cannon, radar, aviation bomb and aviation cameras. Among which, lots of them are the precious cultural relics of the country and world aviation treasure works.

After visiting the museum, take a funny tour of Beijing Zoo to see the giant panda. After lunch, visit Beijing Planetarium. The planetarium, with its cupola measuring 25 meters in diameter, is the main focus of interest of the entire complex. At regular intervals, 45-minute presentations take the visitor on a trip through the heavens made possible by projectors installed in the centre of the hall which faithfully reproduce an image of the starry sky on the inside of the cupola.

Return to hotel at about 5:00 PM.

Duration: 8 Hours

Pick-up point and time: Your Hotel
9:00am

Finishing point and time: Your Hotel
5:00pm
